## **VII. NATURE OF ISSUER'S BUSINESS**

The Company is the lessor of its Engels and Superior copper mines in the Lights Creek Mining District, Plumas County, California. Historically the mines operated from 1914 to 1930 producing 160,170,000 pounds of copper from 4,700,000 tons grading 2.5% copper. The mines were closed by the Great Depression of the 1930's. It was often the largest copper producer in California during the 1920's. In that sixteen years the Company built the 400 tons-per-day Engels Mill, the first all flotation mill for copper in the United States. Also completed were the 1,000 ton-per-day Superior Mill, the Engelmine company town and the 20 mile long Indian Valley Railroad to connect with the Western Pacific Railroad at Paxton. This allowed the Company to ship copper concentrates by rail to the smelter at Garfield, Utah. During that period the Company was a substantial employer in Plumas County, supported the local economy and paid dividends to its shareholders. Today the property consists of 36 patented lode mining claims totaling 736 acres and 339.24 acres of fee lands and the certified Engelmine Forest tree farm. The Company also has a Plumas Copper Belt mining library. From 1964 to 1993 the Company leased its property to Placer Development Ltd., Vancouver, Canada. Placer was a major worldwide mining company. Placer's extensive drilling and sampling of underground workings at the Superior Mine developed a substantial copper resource. Beginning in 2006 the Engels and Superior mines have been leased to a series of junior Canadian mineral exploration companies. The first, Sheffield Resources Ltd., Vancouver, Canada, was led by a former Placer geologist. Nevoro Inc., Toronto, Canada acquired Sheffield in 2008. Sheffield/Nevoro drilled 44 HQ holes at the Engels Mine to define high-grade copper mineralization and sampled underground workings at the Superior Mine during 2006-2008. During 2009, Starfield Resources Inc., Toronto, Canada, acquired Nevoro and drilled three holes at the Engels Mine in November 2009. An airborne geophysical survey of the property was conducted in May 2010 and four more holes were drilled at the Engels Mine in June 2010. No mineral exploration was done by the mineral lessee during 2011 and 2012. Effective July 27, 2013, US Copper Corp. formerly Crown Mining Corp., Toronto, Canada, acquired the mining lease from the bankruptcy of Starfield Resources Inc. Crown's consulting mining engineer and consulting geologist completed a Technical Report and Resource Estimate for the Superior Project, Plumas County, California dated November 15, 2013. The mineral resource of the Superior Mine is estimated to be 54 million tons at an average grade of 0.41% copper with 487 million pounds of contained copper. The mineral resource at the Engels Mine is presently estimated to be 2.5 million tons at an average grade of 1.05% copper with 60 million pounds of contained copper. A detailed surface geologic mapping of key areas on the property was completed during the 2014 field season. In 2016 Crown Mining Corp. acquired the Moonlight Valley copper property of Canyon Copper Corp. thus consolidating the 13 square mile Lights Creek Mining District copper properties. During 2017 Crown Mining Corp. retained Tetra Tech Inc. to complete a

Preliminary Economic Assessment (PEA) on its Moonlight-Superior Copper Project. The PEA was completed on April 18, 2018. Crown Mining Corp. changed its name to US Copper Corp. See their Website: [uscoppercorp.com](http://uscoppercorp.com) and their Facebook and Twitter sites for Superior Mine and Engels Mine conformation drilling results and updates. In the past 40 years four Master Thesis have been completed on the Plumas Copper Belt along Lights Creek, three on geology and one on water quality.

The mineral deposits of the Lights Creek Mining District are recognized as the largest known unmined copper resources in California.

The Company plans on filing a contingency lawsuit against Pacific Gas & Electric Company for damage to its property and Engelmine Forest tree farm from the 2021 Dixie Fire.
